

SUMMARY

Based in Peru.

Experience in frontend, backend and mobile development.

Passionate about developing functional products that provide value without neglecting the clean, understandable and optimized code.

Adaptable to work under pressure and adjustable to delivery times through discipline and organization in order to help the progress of the projects.

Teamwork fan because it helps me to analyze different points of view for the same situation and grow as a person by interacting with the different members of it.

Wishing to be part of a company that allow me to improve my skills and expand my knowledge.
